The screenshot shows the Twitter profile of @MongoDC. The header includes the profile picture (a silhouette of a dome with the word 'mongoD' below it), the name 'MongoDC', the handle '@MongoDC', and the description 'Washington DC MongoDB Users Group' with a link to a Meetup group. It also shows 'Following' status, 155 tweets, 86 following, and 62 followers.

Below the header, there is a 'Tweet to MongoDC' section with a text input field containing '@MongoDC'. To the left of the tweets is a sidebar with links: 'Tweets', 'Following', 'Followers', 'Favorites', 'Lists', and 'Similar to MongoDC'. The 'Similar to MongoDC' section lists three users: Antoine Girbal, Matthew Kroll, and Adam Comerford, each with a 'Follow' button.

The main 'Tweets' section displays four tweets from @MongoDC:

- Tweet 1 (25m):** rain doesn't stop big data, don't let it keep you from tonight's @mongodc meetup discussing #mongodb & #hadoop bit.ly/HiP9W6 [View media]
